#### Non-Sufficient Funds (NSF)/Overdraft Fees

We will not charge a fee when an overdraft is created by an ATM withdrawal or one-time POS.

You will be charged a non-sufficient funds (NSF) fee each time an item is presented against non-sufficient funds whether we pay the item and overdraw your account or we return the item unpaid, even if the item has been previously presented against non-sufficient funds. Examples of items that may create non-sufficient funds include check, in-person withdrawal, transfer, recurring debit card, ACH and other electronic transactions. The payment of transactions into overdraft is discretionary, which means we do not guarantee that we will authorize and pay any type of item. You may refer to the account disclosure for transaction posting order. An NSF fee will not be charged on an item which would cause your balance at the end of the day to be overdrawn by \$10 or less.

NSF/Overdraft ( <i>fee per item paid</i> ).....	\$ 30.00
NSF/Returned Item ( <i>fee per item returned unpaid</i> ).....	\$ 30.00
NSF Daily Maximum ( <i>up to seven items</i> ) .....	\$210.00
