

# Luther Burbank<sup>®</sup> | *Savings*

To Our Valued Customers:

2017 has been a challenging year as family, friends and neighbors have lost homes and businesses as a result of the North Bay fires. Luther Burbank Savings has a history in Sonoma County as a leader in construction and development financing. Many of the homes lost we helped build through construction financing.

In an effort to facilitate the rebuilding of Sonoma County, we have established the Luther Burbank Corporation Foundation. Through contributions from Luther Burbank Savings, shareholders, directors, employees and business partners, the Foundation's immediate focus will be the rebuilding of Sonoma County. The Foundation will also support community development and economic revitalization efforts in our communities.

The future capital needs of Sonoma County will be intensive. We will make every effort to put our capital to work as we rebuild our homes, our businesses and our lives.

Thank you for your business. It is truly appreciated.

Victor Trione
